

Lecture Overview - Closures

In this lecture, you will learn -

- Reasons for avoiding global variables and methods.
- Different ways to solve the problem of global variables.
- Closures.
- Arrow functions.

At the end of this lecture -

You will be able to

- Identify what variables and methods are contained within the scope of a function.
- Be able to handle the conflict that arises due to using global variables.

To make the best use of this lecture, we advise you to keep the same points in mind as suggested for earlier lectures.
