

Lecture Overview

In this lecture, you will learn -

- The 'this' keyword.
- Determining and setting the value of 'this' inside a function.
- Constructor functions.
- Function prototypes.
- Classes.

At the end of this lecture -

You will be able to

- Determine the value of 'this' inside a function.
- Use conventional functions to create objects.
- Use classes to create objects.

To make the best use of this lecture, we advise you to keep the same points in mind as suggested for earlier lectures.

Additionally

- Keep practising and experimenting with the concepts and code that are taught.
- Try to understand the concept rather than rote learning about how things work.
- Always read solution descriptions even if you get your answer correct.
