

Chrome Extension for Disabling CSS

If you want you can add this chrome extension to disable the CSS of any website. Then check and learn how important CSS is for styling.

- Go to this link and add this extension to your browser [Link](#).
- Open the website whose CSS you want to disable.
- Click on the icon of the extension on the top left corner of your browser.

- Select the Web Developer extension that you just added as shown.

- Select CSS → Disable All Styles
