Lecture Overview: Intro to CSS

In this lecture, you will learn -

- What is CSS?
- The three ways to use CSS for styling websites:
  - Inline CSS
  - Internal CSS
  - External CSS
- Preference of rules for inline, internal, and external CSS.
- Browser Developer Tools and Debugging.
- CSS Selectors for selecting and styling elements.
- Grouping and Nesting CSS Selectors.

At the end of this lecture -

:

- You will be able to select and apply the most appropriate method of CSS styling (inline/internal/external) based on requirements.

To make the best use of this lecture, we advise you to keep the same points in mind as suggested for earlier lectures.
